Art History

A Multimedia Presentation

Friday February 27, 2026 — 6:30-8:00pm
Saturday February 28, 2026 — 1:00-2:30pm

This is a multimedia presentation with examples from all of the major art movements and how they relate to what people think and believe. The focus will be on two-dimensional art that has shaped western thought and culture. We will follow the evolution of painting from the middle age through the modern art movement of the twentieth century. This is a personal perspective and how I have developed a worldview of art that encompasses theology, culture and observations as an professional artist.

Art, religion, philosophy and culture all affect each other and looking at how they do that is vital to understanding any of them.
